

July 17, 2019

My name is Alan Necessary, owner of Sarges's Pay Lake and Campground. I have attended the small business challenge for two years and it is one of the best kept secrets that Washington county has to offer. I am in my third year of business and I wish I had taken the course first because it would have saved me time and money.

There are so many positive things that I could say about the people who work with future new business owners. Not one person showed any negativity towards any business, and they all genuinely care about the success of those businesses. Even after completing the course these professionals still are at the service of any business in Washington County.

They have been extremely helpful in my business.

My first year we had about eleven businesses enrolled in the business challenge and last year we had over twenty. And yes, this year I will be attending again because each year we have had different instructors and speakers. This allows individuals to learn something new and to network with other businesses.

In closing, I wish to thank everyone that has assisted me in gaining knowledge in today's business world. As they say "knowledge is power", and without the knowledge mistakes are made.

Sincerely,

Alan Necessary
